

Resolution in Support of the California Faculty Association (CFA) from CSUEU

Passed by the California State University Employees Union Board of Directors
March 12, 2016

Whereas, we believe that standing in solidarity is in the best interest of all CSU unions; and

Whereas, because a stable, supported workforce and workplace means quality education for CSU students; and

Whereas, we believe all CSU employees deserve a living wage, including struggling adjuncts/lecturers;

Therefore, be it resolved that CSUEU hereby supports CFA in its plans for a systemwide strike on April 13-15 and 18-19. We support CFA as it presses hard to ensure the professional working conditions and reasonable learning conditions that are essential for quality education.

And be it further resolved that, although CSUEU-represented employees cannot engage in a sympathy strike, we share a collective bond with CFA because we are both CSU unions and we must both bargain with the same employer, share the same worksite, and serve the same students. The combined membership of our two unions equals a critical mass of CSU employees.

Therefore, be it finally resolved that we stand together to protect the bargaining process and to support our sisters and brothers in CFA.
